

Upcoming CA Air Resources Truck Rule Workshops

**Please make your members aware about the upcoming diesel truck rule workshops (listed below in the table) that will be conducted by CARB. We need to make those aware who want to take advantage of the ag mileage thresholds that they will need to be signed up with CARB by March 31, 2010 and labels (AG decals) will need to be on those vehicles by April 30, 2010.**

Information about the rule, forms and labels is available at our website

[www.cfbf.com/issues/truckbus.cfm](http://www.cfbf.com/issues/truckbus.cfm).

**We are working with other ag organizations and CARB to schedule additional workshops in locations not serviced by the CARB workshops and to order labels that will be provided to each county Farm Bureau and the ag organizations so they can provide them to their members. We will get the additional workshop information to you as soon as the locations and times are set and distribute the labels once they are secured.**

**Free Training Seminars  
Truck and Bus Regulation**

ARB has posted dates, times, and locations below for a series of public training seminars to discuss the March 31, 2010 reporting requirements for the Truck and Bus regulation. The seminars will be offered in the day, in the evening, and also by webcast. The training seminars will provide:

- Update and overview on the regulation, focused on the agricultural and two-engine sweeper requirements;
- How to use the fleet calculator;
- How to use the ARB on-line reporting system
